

# Teddywaddy Code Club

## Activity 2i

### Your own page

My favourite food

# Your own page

In this exercise you will be creating a web page. The topic will be up to you.

Some homework is required!

- Decide on a topic.
- Gather some photos. (Bring them on a memory stick if you can.)
- Write down what you would like to say.
- Start thinking about how your page should look.

If you want to save your work and show friends and family (at home or school) you will need to **Sign in** to trinket.io.

For this you will need your parents permission. Some instructions on how to do this are in the booklet at,

<http://www.teddywaddy.com.au/homework.pdf>

# Your own page – Style 1

A simple page with a heading, one image and some writing.

First - You will need your teacher to load the pictures you brought along.

<https://trinket.io/html/1dbb69f57d>

# Your own page – Style 1

```

1 <html>
2 <head>
3   <style>
4     .container {
5       position: relative;
6       width:600px;
7       margin: auto;
8       border-style:none;
9       border-color: black;
10      border-width:5px;
11      border-radius:0px;
12    }
13    .heading {
14      font-size: 12pt;
15      color:black;
16      text-align: center;
17    }
18    .writing {
19      font-size: 12pt;
20      color:black;
21      text-align: center;
22    }
23    .images{
24      width:100%;
25    }
26  </style>
27 </head>
28 <body>
29   <div class="container">
30     <h1 class="heading">My Favourite Food</h1>
31     
32     <p class="writing">
33       On a hot day I like nothing better than an ice-cream!
34     </p>
35   </div>
36 </body>
37 </html>

```

Change the border.  
The border-style can be:  
dotted  
double  
groove  
solid

You can change how the heading and the writing look

Change the heading and the writing

Change the picture

# Your own page – Style 2

If you have more than one photo you can use Style 2 to set out your web page.

First - You will need your teacher to load the pictures you brought along.

## My Science Excursion

<p>A balancing act!</p> 	<p>In year 7 we visited a science laboratory. It was great and we spoke to several scientists.</p>
 <p>There were a lot of robots each doing a separate job.</p>	

<https://trinket.io/html/a0d95a68a4>

# Your own page – Style 2

You will need to change the example to suit how many pictures you have and how much writing you want to put in.

```
43 <body>
44 <div class="container">
45 <div class="heading"><h1>My Science Excursion</h1></div>
46 <div class="box"><p class="writing">A balancing act!</p></div>
47 <div class="box"><p class="writing">In year 7 we visited a science laboratory. It was great
48 <div class="box"><p class="writing">There were a lot of robots each
49 <div class="box"></div>
50 </div>
```

Line 45 is for the heading. Change that to your heading.

For each box you need to copy or use one of the lines shown above. Don't forget to change the picture name and the writing.

Line 46      A box with a picture below some writing.

Line 47      A box with just some writing.

Line 48      A box with some writing below a picture.

Line 49      A box with just a picture.

You can have as many lines as you like.

Now you can start to make the page look nicer.

Change the background and the boxes

Change the overall width

Change the colour of the background

```
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24
```

```
.container  
  display: grid;  
  width: 800px;  
  margin: auto;  
  grid-template-columns: repeat(2, 1fr);  
  justify-content: center;  
  align-content: center;  
  background-color: white;  
  column-gap: 20px;  
  row-gap: 20px;  
}  
.box {  
  border-color: coral;  
  border-style: solid;  
  border-width: 3px;  
  border-radius: 5px;  
}
```

48%;

Change the box border using any of these

## Change the heading and the writing

Change the colour of the heading

Change the size of the heading

```
25 ▾ .heading {  
26     color:orange;  
27     text-align: center;  
28     font-size: 18pt;  
29     grid-column-start: 1;  
30     grid-column-end: 3;  
31 }  
32 ▾ .writing {  
33     color:darkorange;  
34     text-align: left;  
35     font-size: 14pt;  
36     padding:25px;
```

Change the size of the writing

Change the colour of the writing
